

## SUNDAYS with

**TED** Ideas worth spreading

**TED.com**

### TEDTalks @ the Library

A four-part series brought to you by Waukesha Public Library and the Waukesha TED.com Interest Group to engage the community in meeting with local experts and discussing TED.com video presentations and related ideas.

Each program includes the viewing of a TEDTalk video followed by a short presentation with a local scholar or subject expert and audience discussion.

All programs will be held on Sundays from 1:30-3:00 p.m. in the Community Room of Waukesha Public Library.

The series is free and open to the public.

### ***Medicine's Future? There's an App for That***

TEDTalk video with Daniel Kraft

Sunday, January 29, 2012  
1:30–3:00 p.m.

Dr. Daniel Kraft, M.D. offers a fast-paced look at the next few years of innovations in medicine.

Lawrence Murphy, Chief of Global Design, GE Healthcare, explores this topic further and discusses what medical innovation means for you.

### ***True Success***

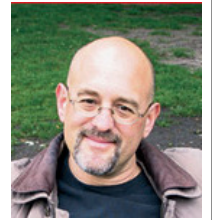

TEDTalk video with John Wooden  
Sunday, February 26, 2012  
1:30–3:00 p.m.

With profound simplicity, basketball Coach John Wooden redefines success.

David Howell, Ph.D., Associate Professor, Milwaukee School of Engineering and the Pieper Family Endowed Chair for Servant-Leadership, discusses how Wooden's leadership style and world view helps to increase motivation, satisfaction and personal growth.

### ***Why Are We Happy?***

TEDTalk video with Dan Gilbert  
Sunday, March 25, 2012  
1:30-3:00 p.m.

Dan Gilbert, author of *Stumbling on Happiness*, challenges the idea that we'll be miserable if we don't get what we want.

Philip Chard, psychotherapist, award-winning newspaper columnist and author will share his thoughts on this topic and facilitate this presentation.

### ***Let's Use Video to Reinvent Education***

TEDTalk video with Salman Khan  
Sunday, April 29, 2012  
1:30–3:00 p.m.

Salman Khan talks about the Khan Academy, a carefully structured series of educational videos offering complete curricula in math and other subjects.

Mary Diez, Ph.D., Dean of Education, Alverno College and Shubhangi Stalder, Ph.D., Mathematics, UW-Waukesha will share their experiences with this innovative teaching method.
